"Sh vil"

As they bite you're laughing
Perfect mind games - your euphoria
Sadness hand in hand with vanity
Hypnotizing chants in disharmony

I don't care for this no more
As I leave your world behind
I don't care, I'll watch you fall

It's only suffocating madness
Falling deeper (down)
Dividing hearts with tyranny
Dethrone sh(e)vil

Importing jealousy and doubts
Trading with compassion
A lifeless symphony exposing
Fatal desperation is at hand

I don't care for this no more
As I leave your world behind
I don't care, I'll watch you fall

It's only suffocating madness
Falling deeper (down)
Dividing hearts with tyranny
Dethrone sh(e)vil
