Stop pulling me down
You can't force me to stay
I'll always be going all the way
You can't make it stop
I'll fight til I top
Can't keep me from all the
things that make me feel alive

Everything is dark
The speed is pushing me back
I'm racing with the stars
For the moment all is black
I have to get away
I travel night and day
To second [...]
Now I'm falling out in space

Stop pulling me down
You can't force me to stay
I'll always be going all the way
You can't make it stop
I'll fight til I top
Can't keep me from all the
things that make me feel alive

No way to get out
I am free from gravitation
There's no room for doubt
Every planet is my nation
Don't know what I'll find
There's not a single sound
Like music to my soul
I've been sucked into this black hole

Stop pulling me down
You can't force me to stay
I'll always be going all the way
You can't make it stop
I'll fight til I top
Can't keep me from all the
things that make me feel alive

This is where I want to be
Want you come with me
This is where I wanna stay
Come and slide away with me

I've been ensucked into this black hole

Stop pulling me...
