Night is calling, I'm cold and weak  
When I'm all alone  
Shadows crawling, my mind is bleak  
Trying to ignore  
You're not here no more

I'm all torn up inside  
I wish the sun would rise

I don't wanna know if I'm not dreaming  
I don't want to face my fears alone  
Every night I wake up cold and screaming  
What if I'm not dreaming?

Whispering voices, but no one's there  
When I close my eyes  
They sing lullabies

I'm all torn up inside  
I wish the sun would rise  
I don't wanna know if I'm not dreaming  
I don't want to face my fears alone  
Every night I wake up cold and screaming  
What if I'm not dreaming?

I'm drowning  
Come hold me  
Please wake me up

I don't wanna know if I'm not dreaming  
I don't want to face my fears alone

What if I'm not dreaming?

(Chorus)
