Spit it out, yeah
I heard you've got something to say
Wanna tell me something tell it to my face
The streets are talking
got rumors starting 'bout me

I've been getting funny looks lately
and this strange feeling's weighing me down
I guess that
With my friends like you
I need no enemies
No I'll never ever take you back!

Spit it out, yeah
I heard you've got something to say
Wanna tell me something tell it to my face
The streets are talking
got rumors starting 'bout me
Suck it up cos if you've got a problem with us
Spit it out, it's OK, either speak or shut up
But I'll have you crawling if you're back-talking me

How come you're spreading all these lies 'bout me
I thought you were a friend of mine
Well I guess not
So you're all of sudden little miss perfect now?
Well I'd straighten you out
But it's just not worth my while!
No

Spit it out, yeah
I heard you've got something to say
Wanna tell me something tell it to my face
The streets are talking
got rumors starting 'bout me
Suck it up cos if you've got a problem with us
Spit it out, it's OK, either speak or shut up
But I'll have you crawling if you're back-talking me

Let it out, just let it out!
Won't you flip your cards and show what you're about
No I won't miss you or the time we spent
Cos you've got no clue how to treat a friend

Spit it out, yeah
I heard you've got something to say
Wanna tell me something tell it to my face
The streets are talking
got rumors starting 'bout me.
Suck it up cos if you've got a problem with us
Spit it out, it's OK, either speak or shut up
But I'll have you crawling if you're back-talking me

Yeah, I'll have you crawling if you're back-talking me
Yeah, I'll have you crawling if you're back-talking me
