I've wondered all my life  
How I could ever let you go  
There's not a lot I change my life  
But one thing that I know

[CHORUS]

If ever I see you again  
Maybe this time, it'll work out alright  
Maybe this time, we won't say goodbye but only  
goodnight  
With a love that won't end  
If ever I see you again

Warm sleepy morning wakin' up next to you  
Feelin' you close by my side  
Nothing on earth has ever felt better  
Than the feeling I felt deep inside

Sometimes it seems that I never lost you  
And that you're not really gone  
'Cause I have this dream, this wonderful dream  
And it just goes on and goes on

[CHORUS]

And if ever I see you again  
Maybe this time, it'll work out alright  
Maybe this time, we won't say goodbye but only  
goodnight  
With a love that won't end  
If ever I see you again
