At night when I come home
You're always crying
When I talk to you
You keep denying
What the hell went wrong?
What am I supposed to do?
What happened to the love that we once knew?

Now when it's on it's on
But when it's off it's off
Maybe I walk around at night
Thinking about the love we've lost
You used to make me feel like
I've never felt before
You used to
Make me feel at peace
Lately we've been at war
When something in me
Just won't let me walk out the door
I wanted you then
And now I even want you more
It's been so long
So much fightin' can't we get along?
Things will never change
If you can't tell me when there's something wrong
I didn't get this then
You think I need this now?
It's almost like you build me up
Just to break me down
You wanna argue some more
Sit and be sad
Tell me all the things
That you know make me mad
You wanna point out all the things
That I still can't change
And take me, break me down
Try to make me insane
You think I came home early
Just to hear you scream and yell
I never cheated
You don't believe it

So I guess I might as well

At night when I come home
You're always crying
When I talk to you
You keep denying
What the hell went wrong?
What am I supposed to do?
What happened to the love that we once knew?

Now if it's broke we can fix it
I'm hopelessly addicted
I want you like a minor
In a movie that's restricted
All it took was one kiss
And I was sprung as predicted
With no decision
Something missing
This is one I'd like to live with
I used to want you by my side
Now are days we can't kick it
You used to be an angel
Nowadays you're straight wicked
She's not a sight to see
Baby's evil to the core
I'm starting to get the feeling
You don't like me anymore
Now was it ever really there
Was it my imagination?
Are you the girl of my dreams?
Or some kind of fascination?
Wanna be with me forever?
Or should I find someone better
Are you after my heart?
Or just after my cheddar?
You used to say that we'd never break up
Never say never
You wanna fight and break up
Fight and make up forever
Fight and shake up the night
Tonight, stormy weather
I'm lost in all the chaos
We can't go through this forever

At night when I come home
You're always crying
When I talk to you
You keep denying
What the hell went wrong?
What am I supposed to do?
What happened to the love that we once knew?

No I wasn't out late
NO SHE WASN'T A DATE
Do you really wanna see?
How much trouble I can make
I thought you were real
Girl it looks like you're fake
We might as well admit
In the club I'm sprain break
Blah, blah, drama, drama
Just keep yappin' your jaw
Girl I suggest you shut your mouth
And forget what you saw
Cause you're seeing things
Out of immaturity, your insecurities
They got you buggin'
Cause you didn't see nothing
Cause if I didn't want you boo
Then I wouldn't be with you
If I wasn't loving you
Then I wouldn't be confused
If I wasn't nothing new
Then I'd be with someone else
You need to start thinking about us
Instead of thinking bout yourself

At night when I come home
You're always crying
When I talk to you
You keep denying
What the hell went wrong?
What am I supposed to do?
What happened to the love that we once knew?
