Give me a chance to break the silence  
Give me a chance to recognize

That if there's a way, we're gonna find it  
And we're gonna make it out alive  
Cause you'd give me back  
More then all I had if you needed, you needed  
Another chance to make it right

Is this really what you wanted  
Is this really what you need

Time is an earth that's slowly turning  
And these are our moments growing cold  
So give us truth before it blinds us  
Cause there's not a chance I'm letting go

Is this really what you wanted  
Is this really what you need  
Is this everything you dreamed it to be

Give me peace of mind to wait  
Or tell me how to find my way back  
Back to you

All I am is dust and faith  
Holding on to find my way back  
Back to you

Is this really what you wanted  
Is this really what you need  
Is this everything you dreamed it to be

Give me peace of mind to wait  
Or tell me how to find my way  
Give me truth at any cost  
Give me more than what was lost
