She's always hanging around with the cool guys
Trying to get a piece of the action
She's so bright but she'll never find out
That all they want from her is friction

Says she don't do drugs anymore
But she's always on medication
She gets what she wants all the time
She's done her home work to perfection

We need a safetybelt for Suzie
She's not alright...
A safetybelt for Suzie
She's not alright...

She can be the snake in your life
Or the monkey on your back
She can make any man go blind
She's so good at playing games

We need a safetybelt for Suzie
She's not alright...

Too far gone, untouchable
Completely unpredictable

And she feeds from your attention
She feeds from your attention

We need a safetybelt for Suzie
She's not alright...
