We've been hearing all kinds of rumors
We've been hearing something's going on
A lot of talking but we ain't seen nothing at all

They're all talking 'bout this big thing coming
All the walls are about to fall
A lot of talking but we ain't seen nothing at all

Come on baby tell me again
Please say that we're on our way
Come on tell me what I wanna know
Come on tell me that it's time to go

One step closer or was it one step further away?
One step closer or was it one step further away?

A lot of people they scream and shout
We don't know what it's all about
A lot of shouting but we ain't seen nothing at all

A lot of rumors in the air tonight
Get ready for the big surprise
They say we're leaving but we ain't seen nothing at all

Come on baby tell me again
please say that we're on our way
come on tell me what I wanna know
come on tell me that it's time to go

One step closer or was it one step further away?
One step closer or was it one step further away?

Ain't seen nothing
Nothing at all...
