I would never turn my back on you if you were me  
I would never talk the way I do  
I'm always on your side but please do not forget  
I've got a side of my own too

Anxiety, coke and chocolatebars  
Took us all this far  
Anxiety, coke and chocolatebars  
Made us what we are, made us what we are

I've got a million ways to tell you how I feel  
But I don't feel at all today  
If you can see your own reflection in my eyes  
You'd better take a few steps back

Anxiety, coke and chocolatebars  
Took me all this way  
Anxiety, coke and chocolatebars  
Is all I need today

I'm looking for the spice of life  
Whatever that could be  
Another turn around the clock  
I've got a hungry mind to feel

The Sunday paper tells you all the things you need to  
know  
And I've learned a lot from innersleeves

Anxiety, coke and chocolatebars  
Took us all this far...
