So now we're nowhere bound  
Who's gonna tell us where to go and what to do  
When all the stars fall down  
And they don't even grant a single wish to you  
Beyond the usual pale  
We're all dancing with a drunken's grace tonight  
We're crossing no man's land  
And everything we had means nothing to us now

We're at the end of time  
The end of time  
Can't you see the signs  
We're at the end of time

We passed the borderline  
You ran around like a chicken with no head  
We left it all behind  
'cause everything was done and every word was said

This is the end of time  
The end of time  
Don't stare your four walls down  
This is the end of time  
End of time

It's just a matter of who and why  
And how to get there in the end

Into the great unknown  
Let's jump oh the water's deep down here  
Now every cover's blown  
Wish it was over but we're really nowhere near

Here at the end of time  
The end of time  
You'll get your peace of mind  
Here at the end of time  
This is the end of time  
This is the end of time  
Your words not mine  
This is the end of time

End of time  
End of time  
End of time  
End of time
