Sharpen up my eyebrow pencil 'cause I can't go out like
this
Help me with these bandage baby hide the scars down
on my wrists
Putting on my favorite jeans don't you know they fit so
tight
And my hair sticks up like a rooster's does as I step out
into the night

Baby
You look so good in black 'n' white yeah
Won't you come home with me tonight yeah
You look so good in black 'n' white

Friday night, you look so tough in your Monte Carlo
shoes
Take me home to your skyscraper baby, won't you blow
my fuse
It was great the way she walked, don't you know that
girl had style
And when we came home we were all alone and she
made me feel alright

Baby
You look so good in black 'n' white yeah
Won't you come home with me tonight yeah
You look so good in black 'n' white yeah!

Get out the leather jacket 'cause it's time to rock 'n' roll
Going downtown won't you come along, try to keep me
under control
Looking for some action, searching blind in the violent
night
Here she comes, and she's all alone and she's dressed
in black 'n' white

Baby
You look so good in black 'n' white yeah...
