It's early in the morning or late at night time to face  
another day  
Mind says up your body says no!  
You can't get out of your bed  
There's a thousand ways to go from here none of them  
is right  
So go back to sleep an hour or two  
It's there when you wake up

You're so hard to please, you'd better slow down  
You don't know what you want  
And money don't make no sound

BURN OUT BURN OUT!  
You ain't got what it takes...

You say you're not a loser  
You think you've got it made  
But when I look into your eyes there's nothing looking  
back

You're so hard to please...

BURN OUT BURN OUT!  
You ain't got what it takes...

Oh no...  
It's so hard to be someone when you ain't got nothing  
to say  
You've got an urge inside that just won't go away  
Big cities make you bitter small towns make you sick  
You waste your money on gadgets and toys  
It doesn't help a bit

You're so hard to please...

BURN OUT BURN OUT!  
You ain't got what it takes...
