I see cities crumble  
I see mountains fall  
I see the water's burning  
The water's boiling hot

I know, I see  
The end is coming

And they all hold their breath  
As they watch the last sunset  
And their dreams have finally come  
At the end of the world

Oh I believe the end is coming now  
I'm standing on the edge  
I'm watching two sunsets

The water is on fire  
I know, I see

And they all hold their breath  
As they watch the last sunset  
And their dreams have finally come  
At the end of the world

And they all hold their breath  
As they watch the last sunset  
And their dreams have finally come  
At the end of the world

I see cities crumble  
I see mountains fall  
I see the water's burning  
The water's boiling hot

I know, I see  
The end is coming

And they all hold their breath  
As they watch the last sunset  
And their dreams have finally come

At the end of the world  
Of the world, of the world oh oh oh
