"Even As We Speak"

Visit "[Even As We Speak](#)" on MotoLyrics.com

I guess I know that I got too close this time
I could see my reflection in your eyes

Even as we speak (I don't know what to say)
Even as we speak (I don't know what to do)
Even as we speak (I don't know what to say)
Even as we speak

No! I woke up and I saw the ball and chain
I could feel it was coming to and end

Even as we speak (I don't know what to say)
Even as we speak (I don't know what to do)
Even as we speak (I don't know what to say)
Even as we speak I'm sleeping off the pain

But I'm not fast enough
And on a bed of nails
And I can't get up I found the truth in a middle of a lie
It's all there so much more than meets the eye

Even as we speak (I don't know what to say)
Even as we speak (I don't know what to do)...
