"Find The Time"

Visit "[Find The Time](#)" on MotoLyrics.com

I can't find the time to lose my mind
I can't find the time to act real wild
I can't find the time to go out of control
I can't find no time at all
I can't find the time to find myself
I can't find the time for anybody else
I can't find the time I've got things to do
I can't find no time for you

But when I do
When I do
When I do
I'm gonna do it alright

I can't find the time I'm hard to please
I can't find the time I need to satisfy me
I can't find the time to start things up
I can't find no time for me

But when I do
When I do
When I do
I'm gonna do it alright

You know that song that says every dog has his day
Well here's one of those dogs waiting in the rain

I can't find the time to lose my mind
I can't find the time to act real wild
I can't find the time to go out of control
I can't find no time at all

But when I do
When I do
When I do
I'm gonna do it alright
Do it alright
