We're in a movie and it's really bad
Inside the worst dream I've ever had
Back to the acting here we go again
Is this a comedy or tragedy ?
Is it fiction or reality ?
Back to the nightmare here we go again

This is a drive-in with a movie from hell
And if I ever get my hands on a 50 ton tank
I'd change the world

I see top men of the industry
Glorifying nuclear energy
Gamma Gamma here we go again

This is a drive-in with a movie from hell
And if I ever get my hands on a 50 ton tank
I'd change the world

I've been acting in this show too long
Now it's time to tell 'em right from wrong
So don't you tell me I've got nothing to do

This is a drive-in with a movie from hell
And if I ever get my hands on a 50 ton tank
I'd change the world
