I'm the cancer causing agent of the FBI
I'm the media perperater of the government lies
I'm the missing link to the Son of Sam
Only the CIA know who I am

I've got a short-wave CB in my shoe
That'll self destruct when my mission through
A push button phone on a government loan
Direct line to the demilitarized zone

High ranking government official
High ranking government official
High ranking government official
High ranking government official

I set up Oswald, Ruby and Sirham too
I'll self destruct when my mission through
Angola, Chile and Cuba too
I'll self destruct when my mission through

'Cause I'm a
High ranking government official
High ranking government official
High ranking government official
High ranking government official

I met Castro a few times
Allende I know him too
Yeah, uh-huh

'Cause I'm a
High ranking government official
