### "Lose Control"

Tell me what to do  
Tell me where I am  
I can't find this place  
It must be off the map

Nothing more to lose  
No reason to remain  
Faster all the time  
To keep me from myself

I don't wanna lose control  
I don't wanna lose control

I don't like this place  
I'm leaving here tonight  
If I can't stay awake  
Maybe you can drive

I don't wanna lose control  
I don't wanna lose control

Time is killing me  
But I'm not killing time  
The view is always better  
From the other side

I don't wanna lose control  
I don't wanna lose control  
I don't wanna lose control  
I don't want a lose control
