Alright, come on, you'd better run not walk
I'm here, right now, I know just what you want
Go on, don't stop, you ain't got no time to waste
Don't wait, not now, come on over and don't be late
(Before it's too late?)

Love all, serve all...
Come and get it now!

It's good, it's great, king size of everything
I know, you now, one look is all you need
Look good, be bad, it'll get you what you want
Just try, one bite, then you'll want even more

Love all, serve all...
Come and get it now!

Get up, be fast, and don't be left behind
We're here, so close, but still so out of touch
Don't wait, too long, you'll soon be dead and gone
Don't miss, your chance, that's all you need to know

Love all, serve all...
Come and get it now!
