"No Solution"

I'm in trouble, trouble deep
I walk around and I get no sleep
I can't keep a normal relation
I'm in a hopeless situation

I can't find no solution
Can't find no solution
No, no, no solution
Can't find no solution right now
Right now, right now, right now

No one wants to hit on me
I got no sexual activity
It's all just an illusion
I'm headed for an institution

I can't find no solution
Can't find no solution
No, no, no solution
Can't find no solution right now
Right now, right now, right now

I ain't got no friends
I don't give a fuck
You all crawl
You all suck

I can't find no solution
Can't find no solution
No, no, no solution
Can't find no solution right now
Right now, right now, right now

No solution
No solution
No solution
