"Shining"

Visit "[Shining](#)" on MotoLyrics.com

I'm a very different me from how I used be
My second time around I've been found
She tricked me with a smile captured me with style
I gave nothing down I don't mind

When I see her she is blinding
I believe her when she's lying
Now she's mine and she is shining

I saw something in her eyes it took me by surprise
What else could I do I just knew
She's the centre of my mind the only shame in town
I'll never be the same not again

When I see her she is blinding...

Now she's shining over me as bright as bright can be
I've never been so sure before
How she moves me deep inside makes the angels cry
I wanna set her free but with me

'Cause when I see her she is blinding...
