The circus of freaks is coming to town  
This is your chance to have a good time  
Come on in and you've made the right choice  
This is entertainment it's a really great show  
We've got a man with six legs and guitars for arms  
And a girl with no brain they say she came for Mars  
yeah

Our show is number one it's the best on earth  
We've got everything we're gonna stun the world

Welcome to the show it's nice to have you here  
We're the sideshow screwballs and we're here to  
entertain

Keep your eyes wide open this is really the most  
It's gonna make your skin tingle it's a really great show  
We've got a zombie rodeo with a bunch of living dead  
And an American guy with 20 eyes in his head

Welcome to the show it's nice to have you here  
We're the sideshow screwballs and we're here to  
entertain

The rock'n'roll mutants are here again  
This will be the day you'll never forget  
Come on in and you've made the right choice  
This is entertainment it's a really great show  
Yeah come on in there's more to see  
Pay us your money it's almost for free yeah

Our show is number one it's the best on earth  
We've got everything we're gonna stun the world

Welcome to the show it's nice to have you here  
We're the sideshow screwballs and we're here to  
entertain...
