Come on ask me anything at all
I'm always here to take your call
You don't need to know me
I'm at your service any time
I take your dreams and make them mine
You can see what I see

I am whatever you want
I'll do the things you don't
I'll say the things you can't
I'll go ahead when you turn back

I'll bear your cross I'll bear your crown
I'll wind you up or turn you down
I'll take your expenses
I won't stop and I won't learn
So you don't get your fingers burned
I will take your chances

I am whatever you want
I'll do the things you don't
I'll say the things you can't
I'll go ahead when you turn back

I am whatever you want
I'll do the things you don't
I'll say the things you can't
I'll go ahead when you turn back
I am whatever you want
I'll do the things you don't
I'll say the things you can't
I'll go ahead when you turn back
I'll go ahead when you turn back
I'll go ahead when you turn back
