his side of nowhere  
This side of bring me down  
You're wasting your time 'cause I'm gone and you keep  
hanging around

And if you can't  
get up and walk away  
Call it quits  
Don't waste another day  
I see you walking down my street  
Places that we used to meet  
such a drag your heart still beats for me

This side of nowhere  
This side of bring me down  
You're wasting your time 'cause I'm gone and you keep  
hanging around

'cause If you can't give up and let it go  
Move along  
I guess you'll never know  
I see you walking down my street  
Places that we used to meet  
such a drag your heart still beats for me

Ever wonder where everything went wrong?  
Everything has just come undone  
You can't hold on

This side of nowhere  
This side of bring me down  
You're wasting your time 'cause I'm gone and you keep  
hanging

This side of nowhere  
This side of bring me down  
You're wasting your time 'cause I'm gone and you keep  
hanging around
