"Too Much Trouble"

Visit "[Too Much Trouble](#)" on MotoLyrics.com

I've been laying low for a couple of weeks
The weather is better and my body is healed
I'm in heat I am so tense
Even the city smell good after rain
You know I try and I try and I try
To have the time of my life
But every time it seems I'm on my way up
I always take a dive I'm always falling down

Too much trouble now
Too much trouble around...

Here I am back on my feet again
All is forgiven and my crimes are paid
What keeps me going is holding me down
I've been knocked to the ground but I still get around
You know I try and I try and I try...

Too much trouble now
Too much trouble around...

The way I am I will remain
I'm wide awake here I go again
My genetic memory's not clean
You know it makes me cruel you know it makes me
mean
You know I try and I try and I try...

Too much trouble now
Too much trouble around...
