Out of this junction
Skipping one more beat again
One more malfunction
I can feel the taste of my gain
Out of the picture
I'm getting one more line on my face
I know what I'm doing now
I am painting corners again

Two of these days is good enough for...
Two of these days, that's all I want from you

A short intermission
I've found something else I can blame
Out of the question
I need all the answers again
I know things that you don't know yeah

Two of these days is good enough for...

Please wake me up now
I'm right where I'm supposed to be
It's one of my best games
So don't you try to play it with me
I know things that you don't know yeah

Two of these days, that's all I want from...
Two of these days is good enough for...
Two of these days, that's all I want from...
Two of these days is good enough for me
