No one's at your service  
You've gotta help yourself  
Trip it up and keep 'em down  
We all got the same chance  
The system of corruption  
Will get it your way  
No problem with the money  
When you're not the one who pays

What you are is what you get  
And you've got what you deserve  
What the hell did you expect ?  
What you are is what you get

We're all born equal  
According to the rich  
Dreams are not enough  
If you're going for the top  
What you are...

Doubt is the brother of shame  
Yeah I did eat some of that pig  
Go ahead smash and grab

Pull yourself together  
Crawl back to the top  
They're gonna kick you down again  
And they're never gonna stop

What you are...
