Another trick another turn
Somehow it looked like I'd never learn
You set me up you let me down
I won't join you when you crash and burn
Oh I've tried so hard
But you want more than I could ever give
It's your choice not mine
I can't make you change the way you live

No I can't take that load off you
Not until you want me to
Finally I understand
You're totally out of my hands

Another act another scheme
You know the lines 'cause you wrote the scene
I recognize your routine
Same old maybes and might have beens
You've got some nerve
I gave you more than you deserve
Well I'm out and I'm done
The spell is broken and your grip is gone

I said I can't take that load off you
Not until you want me to
Finally I understand
You're totally out of my hands

You need me
More than I need you
I'm not your savior anymore
No I can't be
The one to pull you through
And I can't hold the wolves outside your door
No!

No I can't take that load off you
Not until you want me to
Finally I understand
You're totally out of my hands
No I can't take that load off you

Not until you ask me to
Finally I understand
You're totally out of my hands
You're totally out of my hands
So totally out of my hands
