Well, I'm driving down the super slab  
I got my rig up on inside the cab  
I'm lookin' for a breaker just to keep me awake  
I been driving six hours and I gotta take a break

[Chorus]  
Breaker, breaker 1-9  
I'm a-lookin' for a copy  
Breaker, breaker 1-9  
Is there any good buddy  
Breaker, breaker 1-9  
A-bring it on back  
Breaker buddy, do you copy  
This is Black Jack, whoo!

Well, I'm ten miles further on down the road  
I'm soon gonna drop this heavy load  
My eyes are goin' shut and a-goin' small  
I think it's time to put out another call

Well, I can see a coffee shop comin' up in front  
I better pull in, before I have a shunt  
Well, this is one day and I wanna see the end  
Here comes the coffee shop, just around the bend

There's some of my good buddies just a-sittin' at the  
bar  
Looks like they're drinkin' that old black tar  
Well, hi Black Jack just a-bring it on back  
Heard you tryin' to copy me, back upon the track

Well, I had me a drink and it's time to go  
Another good buddy just lookin' for a tow  
Just another thirty miles, I'm glad to see  
Breaker-breaker, everybody at the end of the day
