"Starscream Forever"

Visit "[Starscream Forever](#)" on MotoLyrics.com

If you could see to the centre of the universe
You can find some peace of mind
Leave your life behind
Wake up in the morning light
You're surrounded by fire
All the darkness deep inside
Followed by desire

Madness falling from the sky
Endless [...] rolling high
And we pray together
Stars will scream forever

If you could see to the centre of the universe
You can find some peace of mind
Leave your life behind
Wake up in the morning light
You're surrounded by fire
All the darkness deep inside
Followed by desire

Madness falling from the sky
Endless [...] rolling high
And we pray together
Stars will scream forever

Stars will scream
