I wonder if you think of me
Somewhere in the shadows of your mind, ooh
Although our love could never be
I found I think about you all the time, ooh baby
Am I in your fantasies
The way you always wander into mine, oo
Are you longing endlessly
Just like me deep inside, ooh baby baby

Chorus:

When the nights are dark and cold
Do you think of me? Do you think of me?
And when you're lying all alone
Do you think of me? Do you think of me?
When you feel the touch of another love
Do you think of me? Do you think of me?
Am I the one you're dreaming of?
Do you think of me? Do you think of me?

I picture you embracing me
We drift away and leave the world behind, baby
But it's only make-believe
Love can be so unkind, ooh baby baby
