Wait a minute
Before you walk away
Let me finish
I've got a lot to say
Baby, I'm not gonna tolerate
This game that you play
You'll regret it
If you desert me this way
When there's nobody
To dry your eyes
Suddenly you're gonna realize

Chorus:(Don't you know)
You need me
(Don't you see)
Believe me
Before you act so hastily
Baby remember you need me
Honey listen, don't make a big mistake
I'm in your system
You really can't escape
When there's nobody
To hold your hand
Suddenly you're gonna understand

Chorus

No one understands you like I do
After everything
That we've been through
Baby, you can turn around and leave
But I know that you'll keep
Coming right back to me

Chorus
