Shake off the rain and dry off
And come inside tonight
You don't have to be alone
You don't have to be love

You've got the prettiest face
That I ever did see
With eyes so sad
Like songs I swear I've known

And I hope to God that you're not pretending
'Cause if you are I swear I don't know
What I'm gonna do

But I promise you that I'll be good to you
If you promise that you'll try to love me too
Somehow

I'd steal a hundred kisses
Before you'd say goodbye
And then make a hundred wishes
In the name of you and I

'Cause what we have is secret
So don't let no one know
The past can't come between us
If we both just let it go

Today's the perfect day
Today's the day I tell you, oh
If you ever walk away
Then I would die right there for you

Give me your every breath

And promise me your world
I don't ask for much at all
All I want is all you've got

Could you be that girl
Are you thinking of me
Or have I projected all of my hopes on you

And I know there'll be nights filled with tears
I know that there'll be fights and fears
But that's a part of it too

So do you think I have the slightest chance to be
Everything to you
'Cause you mean everything to me

I'd steal a hundred kisses
Before you'd say goodbye
And then make a hundred wishes
In the name of you and I

'Cause what we have is secret
So don't let no one know
The past can't come between us
If we both just let it go

Today's the perfect day
Today's the day I tell you, oh
If you ever walk away
Then I would die right there for you
For you
