Cast shadows through the days
And swing the night and come with me
There's nothing to believe in here
So just believe in me

Your sense of apprehension suits you
You wear your troubles well
I've nothing left to hide from you
I've got no God to sell

Just put your hand in mine
Then cast your doubts aside

We can hide away for days
Pretend the world has ended
No more drama, no more pain
Pretend the world has ended

We can run away tonight
Pretend the world has ended
No matter what they say we'll work out fine
'Cause you and I know this is heaven

Your hair's damp from the rain
Hungry eyes that look like lust
The ghost of lost loves follow you
You feel but you can't trust

Time disappears inside you
'Til there's nothing left but us
We wave goodbye to everyone
And hope our love's enough

Just put your hand in mine
Then cast your doubts aside

We can hide away for days
Pretend the world has ended
No more drama, no more pain
Pretend the world has ended

We can run away tonight

Pretend the world has ended
No matter what they say we'll work out fine
'Cause you and I know this is heaven

We can hide away for days
Pretend the world has ended
No more drama, no more pain
Pretend the world has ended

We can run away tonight
Pretend the world has ended
No matter what they say we'll work out fine
'Cause you and I know this is heaven
