Bonnie Riatt - Lover's Will

=====

Wholl take the only hearts they got
and throw them into the fire?
Wholl risk their own self respect
in the name of desire?
Wholl regret everything theyve done
and who will get the bill?
Lovers will

Wholl hurt each other all the time
and never give it a thought?
Wholl lie about where theyve been
and hope they never get caught?
Wholl say each others kisses
no longer thrill?
Lovers will

Lovers will do almost anything
For the thrill that only love can bring
If love is a healer, wholl be the first ones ill?
Lovers will

Wholl never know what theyve got
until its just about gone?
And whose arms will gather up whats left
to carry on?
And wholl stalk that little bit of love
that hasnt been killed? Lovers will
