(Brown, Whelan)

I'm mad about you
You're mad about me babe
Couple of fools run wild aren't we
Pushing the day into the nighttime
Somewhere between the two
We start to see

Mad about you (Mad about you)
Lost in your eyes (Reason aside)
Mad about love (Mad about you)
You and I

Something 'bout you
Right here beside me
Touches the touched part of me like I can't believe
Pushing the night into the daytime
Watching the sky's first light
While the city sleeps
