### "We Swim"

Swim for your life. Swim for life.  
Tonight nobody sings, but we are screaming our hearts  
out on to the pavement. Breath in my brother.  
'Cause we'll do what we always do.  
And we'll do it again. We swim.  
In predatory waters bound to swim upstream.  
We fight these freezing rivers. The winter is here to  
stay.  
Stay with me. We fight these freezing rivers by painting  
pavements with everything inside.  
We fight. Tonight we do what we always do. And we'll  
do it again. We swim.
