Chorus

Mammy didn't have a child  
Wild goes with a working man  
Church go in deep  
Gain who did all daddy came  
He grab the bottom hand  
And told is nothing you can do  
Vanish girl this your world  
You such a Pretty Girl  
Party night  
Little house on nigga hood in da hood  
To protect da seven children  
Do anything that he could  
This little girl was strong  
Cup and heads in the book  
College prom was none  
So smart such a Pretty girl  
Pregnant at sixteen  
Talk she was in love sadly  
Looking for man that resemble to daddy  
Wise and up to stay at school  
Like she have something to prove  
She had a son and she was still a young  
Pretty girls  
work fast in a short time  
Burn at life with chillin'  
You got to play the cup like a splinter  
This world is more harsh then the cold is winter  
Three boys but she never had a pretty girl

Chorus

Papa was in and out the box  
When we had never home  
She hadn't a brother and sister we's all they own  
She was so alone  
Hit the street as a early age  
She never had the chance to be a pretty girl  
Started off help in a boyfriend mud a rocks  
Now she'd been home in days  
Family looking for own a block  
Always innings cops

She'd been seen by a rock  
Look what cocaine did to such a pretty girl  
All of this profusion  
She turn 24  
stay tryna take a kid  
It's just too much  
Papa ain't no way to be found  
Even if he was around  
He probably win the NWDo much  
As sad like the story seems  
This pretty girl never really had a chance to pursue her  
dreams  
Did I mention she could sing, so talented by the tyre  
But in her face you still see that she that

#### Chorus

First off, I wanna say I love you  
I love you tall, I'll be saying  
You understand this when you get it older  
sometimes life will give you the cold shoulder  
Don't let the pressure fold ya  
Stay sharp my little pretty girl  
Don't let this words with boy, take a arm you so pretty  
girl  
Is gone be rough but you know what you're in love  
Cause you having strange feelings  
And I saw you think in love  
Do what you love  
First then make money honey pretty girl  
Let him tell you about safe and account  
Even but the change in a couch up  
Every penny counts but  
More important in that keep a circle of friend who can  
trust through the end  
Got your back or break a ban  
No matter what type of check that you win, cause  
As gone be rough more than any money you can ever  
spend  
So you can call this your history lesson  
Maybe the past that help you out with the present
