Everything I do, I do for you
And I could never live my life without
And late at night when I dream about you
I've heard of special, nothin' special like you

And everything I do, I do for you
And I could never live my life without
And late at night when I dream about you
I've heard of special, nothin' special like you

I see ya everywhere I go and you're incomparable
To any of these other pretty girls I know
And when you walk into the room, girl, you steal the
show
You try to act like you're normal but you're finer than
you know

'Cause everyone looks when you cross a room
One look and I was hooked like b-real to boom
'Cause you play hard to get, which I really respect
Lipstick like a red corvette with intellect

Gimme the time, any time, I'm sure we'll connect
I'm sure we'll get down and time will perfect
'Cause I want you, girl, I want you now
I'll do everything right the first time around

I wanna sex you up and lick you down
I said, "I want you, let me love you now"
I wanna sex you up, let me hold it down
I said, "I want you, girl, let me love you now"

Everything I do, I do for you
And I could never live my life without
And late at night when I dream about you
I've heard of special, nothin' special like you

And everything I do, I do for you
And I could never live my life without
And late at night when I dream about you
I've heard of special, nothin' special like you

I can't remember where we met, it's all just a blur
But I know what I want, I've never been so sure
You're like a treasure, so innocent and pure
You become the addiction that my doctor can't cure

My friends talk, I don't listen 'cause they're missing the
point
They'll never understand us like I do, I'm after you
'Cause you're special, you make me think of sexual
things
Just a boy and a girl, just a king and his queen

Only a person that has felt love would know what I
mean
'Cause you got what it takes to make my heart sing
Baby, make no mistake, you're the girl of my dreams
The kinda girl that I could love, that I'd put on my team

You could be my candy girl, the sparkle in my eye
My inspiration arm in arm, girl, I need you by my side
I wanna sex you up, let me hold it down
I said, "I want you, girl, let me love you now"

And everything I do, I do for you
And I could never live my life without
And late at night when I dream about you
I've heard of special, nothin' special like you

And everything I do, I do for you
And I could never live my life without
And late at night when I dream about you
I've heard of special, nothin' special like you

And no one knows ya quite like I do
I've heard of special, nothin' special like you
And no one knows ya quite like I do
I've heard of special, nothin' special like you

Special, you're so special
Special, you're so special, special
Ah ah, ah ah, ah ah
Yeah, believe me, I know special when I see it
And nothing's special like you
