All the fables that you know  
Light 'em up and watch 'em blow  
So forget what you been told  
Evolution calling  
Bury the truth and bury it well

Empty shell  
Explode  
Empty shell  
It's starting to show

All the damage that you sow  
Is coming back so watch it grow  
When you think you've had it all  
Evolution calling  
There is a secret that you'll never tell  
Empty shell  
Explode  
Empty shell  
It's starting to show

Hell is raining down upon you  
Wait for the sky to fall  
And life goes grinding on  
Like a month of f\*\*\*ing Sundays

Empty shell [x4]
