Should we debate significance
Or would it leave us too small
'cause it could take some time to linger
Pushing us to a fall
Pausing to initiate
Around and around
In trance we heard a dirty word
In dance we scream a sound

Let the selfish become selfless
Ok, its a start
Worlds in worlds
Not you at it's heart
Please could you just slow down
Please just slow it down
It's going too fast
I'm not built to last
Around and around

Screwtop!
Huh
Screwtop!

It's the end of an age my friend
It's the end of an age
The struggle of millions
Pull-push back
Twist and tiptoe
Don't fall through a crack
Once you heard the lie of life
There's no coming back

Should we debate significance
Or would it leave us too small
'cause it could take some time to linger
Pushing us to a fall
Pausing to initiate
Around and around
In trance we heard a dirty word
In dance we scream a sound

Screwtop!
Huh
Screwtop!

Twist, twist, twist
From the head to the hand
From a palm to a fist
Crawl, crawl without all
So we twist
Gonna take it all apart
Gonna take this piece away from me
Your level-headed theories
Your hot headed cries
Head to toe
Right me wrong
But just don't say no
Wind me up
I'll be ready to go
But then who's face
Yours or mine
Gonna rip this fucker out
I'm gonna tear this piece away from me
I'm gonna bring it down to its knees

Screwtop!
Huh
Screwtop!
