"Love Town"

Visit "[Love Town](#)" on MotoLyrics.com

Everybody bring your body to love town.
Midnight madness
moonlight gladness in love town
baby.
Out in the dark
under the stars there's a brand new horizon.
City full of lights - yes
it glows in the night and it's full of surprisin'.
Every doonray has a fantasy land
That will shake up your mind (shaking up your mind).
Neon ladies selling rooms for romance on a twelve
o'clock high.
Everybody bring your body to love town. . . .
Out in the streets no one ever sleeps 'cos their body's
on fire.
Up on the roof love is one hundred proof

You get me goin' high and higher.
Every window has a shadow or two
Making love in the night (making love all night).
Look around you at your dreams coming true - the
world's in your life.
Everybody bring your body to love town. . . .
Every doorway has a fantasy land.
Everybody bring your body to love town. . . .
Put your hands together.
Everybody bring your body to love town. . .
