#### VERSE

Cinderella put your shoes on  
We'll be out past midnight  
Tell your sisters they can lock the door  
It's gonna be one hell of a night  
We'll be poppin tops, shots and rockin with the radio  
Tailgate dancin and postin up the video  
Redefining the good time  
Crossing boundary every line

#### Chorus

When we're under big city lights and backcountry  
roads  
The good time comes easy  
We don't need a Saturday night to throw down

Or for good southern whisky to go down  
Just a cool bunch of friends with y'all right here  
If we're lucky we won't burn the place down  
Havin a good time  
Havin a good time

#### VERSE

Drinks flowing it won't be long  
Til everybody's singing along  
String top girls cut up jeans and curls  
Dancin in the back of my truck  
With their real rough boys making lots of noise  
Screaming everybody I wanna rock  
Chorus
