Listen here people, listen to what I have to say (2x)  
If you drink bad whiskey, it will do you this a-way

Make you lose your money, make you lose your best  
friend (2x)  
And when you get sober, swear you'll never get drunk  
again

Lay down in the evening, wake up in the morning  
feeling bad (2x)  
It's just some bad liquor, partner, that you've had

Get up in the morning, your head going round and  
round (2x)  
Buy more bad liquor, stand there and drink it down

Better stop that drinking, before it goes to your head  
(2x)  
Wake up some morning, find your own self dead.
