I got a no good woman and she sho' don't mean me no
good (2x)

I hope it ain't another woman like her, in nobody's
neighborhood

She leaves every mornin', come back at the break of
day (2x)

And when she comes in the mornin', she ain't got a
word to say

Every time I look at that woman, she's got a frown on
her face (2x)

I believe that woman done let my best friend take my
place

Every evening he used to stop by my door (2x)

But since he's got my woman, he don't stop there no
more

She's just a no good woman, and I took her to be my
friend (2x)

But she's taught me a lesson, 'bout no good women
and men
