You're like the guy on the phone in his lamborghini
Talking with the male while his wife's on the other line
He will never say that really, really, truly loves her
He just doesn't have time

You're like the friend that was more like an enemy
An evil smile that will get you anything you need
No one will ever really know that they just don't have
time

There's only so much abuse that I'm gonna take
You're wasting all my time!

Goodbye, you suck!
Never really liked you
No more "What's up?"
'Cause I don't care anymore

Goodbye, you suck
Said I never liked you
So long, good luck!
Goodbye, you suck!

You're like the bully in my high school down the street
Living with the pain that is so damn hard to beat
She will never say that she's really, really, truly sorry
She will never shine

You're like the phone call that I always seem to get
20 times a day, just convincing me to place a bet
But I'm not gonna answer, I'm not gonna answer

There's only so much abuse that I'm gonna take
You're wasting all my time!

Goodbye, you suck!
Never really liked you
No more "What's up?"
'Cause I don't care anymore

Goodbye, you suck
Said I never liked you

So long, good luck!
Goodbye, you suck!

Goodbye, you suck!
Never really liked you
No more "What's up?"
'Cause I don't care anymore

Goodbye, you suck
Said I never liked you
So long, good luck!
Goodbye, you suck!

Goodbye, you suck!

Yeah, yeah, yeah, yeah
Yeah, yeah, yeah, yeah
Yeah, yeah, yeah, yeah
Yeah, yeah, yeah, yeah

You were so overrated anyway
Way to perfect for my taste
I wish I could've seen this long ago
The happy ending seeing you alone

Goodbye, you suck!
Never really liked you
No more "What's up?"
'Cause I don't care anymore

Goodbye, you suck
Said I never liked you

Goodbye, you suck!
Goodbye, you suck!
Never really liked you
No more "What's up?"
'Cause I don't care anymore

Goodbye, you suck
Said I never liked you
So long, good luck!
Goodbye, you suck!

Goodbye, you suck!
Goodbye, you suck!
Goodbye, you suck!
Goodbye, you suck!
Goodbye, you suck!
