In the light of the day
In a blink of an eye
A shadow it passes your way

From deep in your past
Escaping your sight
A shadow it hides in your mind

It starts as a thought
A footprint in time
Images triggered by pain

Unfocused and vague
Your senses unclear
The shadow forgotten reveals

Shadows-a footprint in time
They hide in your mind
Shadows-they, ve caught up to you
You may never be free
Shadows-in the dark of the day
The forgotten revealed
Shadows-focused and clear

Feeling once lost
Now buried alive
Now starring you straight in the face

There's no were to run
There's no were to hide
Shadows remember your name

In the dark of the night
To the shadows delight
A glimpse of the past in unveiled

You watch it unfold
As if you were there
Your greatest fear rises in truth
