You're standing 14 feet away  
Meet me in between June & May  
We are Gods of circumstance and Masters of decay  
Just slide the blade straight through my heart  
and cradle what I say  
You'll never be alone, nor free  
I swore it'd be this way.  
My fingers break off inside your hands, my lips inside  
your mouth  
My legs crumble in our bed of sand

You see me  
See me fade & fall away  
A crumbled heart with collapsing veins  
I swore I'd  
Swore I'd stay, but theres no way  
You made your choice, we're dying today

All thats left are heart & hands  
Its your turn baby, be a man  
Come closer now & follow the plan  
Its midnight on May thirtyone  
Be my god and bleed like one  
you have my heart, my soul, my love  
You took my life now send me off  
Skin tinted red, lividity  
Rigger Mortis through all of me  
We're both worth more dead, bab  
come with me

You see me  
See me fade & fall away  
A crumbled heart with collapsing veins  
I swore I'd  
Swore I'd stay, but theres no way  
You made your choice, we're dying today

You shot me dead with red lips and happy hands  
Pull the trigger harder, boy  
tonight you'll be a man  
Fumbling over torn off clothes

make your way to the bed  
Our song will play, I'll kiss your face  
You'll bring us to the end

You see me  
See me fade & fall away  
A crumbled heart with collapsing veins  
I swore I'd  
Swore I'd stay, but theres no way  
You made your choice, we're dying today

You see me  
See me fade & fall away  
A crumbled heart with collapsing veins  
I swore I'd  
Swore I'd stay, but theres no way  
You made your choice, we're dying today
