I got idealistic, ideological tendencies
True and the real equals trill Â– complimentary
Menagerie of rhymes comin' at you pyrotechnically
But I'm no Mephistopholes, more like Socrates
Philosophy on life is to transcend the physical,
Spiritual, metaphysical, multidimensional
Monumental errors in your ways make you full of bull
A vegetable, ineffectual, and pitiful
Hunt MC's with Velociraptor pack mentality
V plus the mic means instant immortality
Contemplating the millennium existentially
Introspectively I ponder all the possibilities
Never underestimate my verbal creativity
Wizardrous with my words Â– pure complexity
Skeptically evaluate your style Â– it's abominable
Fans recognize my flow is astronomical

I drop hot 16's like Raekwon said
Pure intelligence don't trip on what's fed
To your cranium Â– Keep your mind off the static
I drop hot 16's multisyllabic

I drop hot 16's like Raekwon said
Pure intelligence don't trip on what's fed
To your cranium Â– Keep your mind off the static
I drop hot 16's multisyllabic

Got a couple lines Â– V has got a cornucopia
Focus long term so I don't end up with myopia
Analyze my rhymes and find 'em indecipherable
Hip hop heads find your mind? Infinitesimal
You can't take my commas, have fun with your
decimals
Pumpin decibels skyward like extraterrestrials
M. Night Shyamalan global geographical
Honeys on standby Â– straight heterosexual
Albert Einstein mad brilliant intellectual
Got the actual satisfied Â– satisfactual
Power to the people with the force unformidable
Waste my time with your rhymes makes me
inhospitable

Statistical with lyrical intimidation
My microphone glow style's ill-lumination
Hybridization? Nah, individual
Never test my liberty Â– free & indivisible

Got the gift of gab when it comes to conversational
My speech is movational and pull is gravitational
True MC skills the V is so invigorating
You're deteriorating and overcompensating
You enact a wack characterization
I freestyle on the mic with swifter improvisation
And none of it's premeditated Â– you'll get eliminated
From any cipher just like you got discriminated
I got discriminating taste so I live it up
Party like a rockstar and rapstar serendipitous
A real rap persona encapsulating the will
Without some out-of-pocket manufacturing of skill
Technological with vision Â– your career's mercurial
Takin' care of business always way entrepreneurial
Fly from Minnesota to cities metropolitan
Got the ice and cream with flavor sweet like Neapolitan

I drop hot 16's like Raekwon said
Pure intelligence don't trip on what's fed
To your cranium Â– Keep your mind off the static
I drop hot 16's multisyllabic

Yeah, Yeah, Yeah. Multisyllabic
That's ad infinitum
Out of this world!
Like that.
